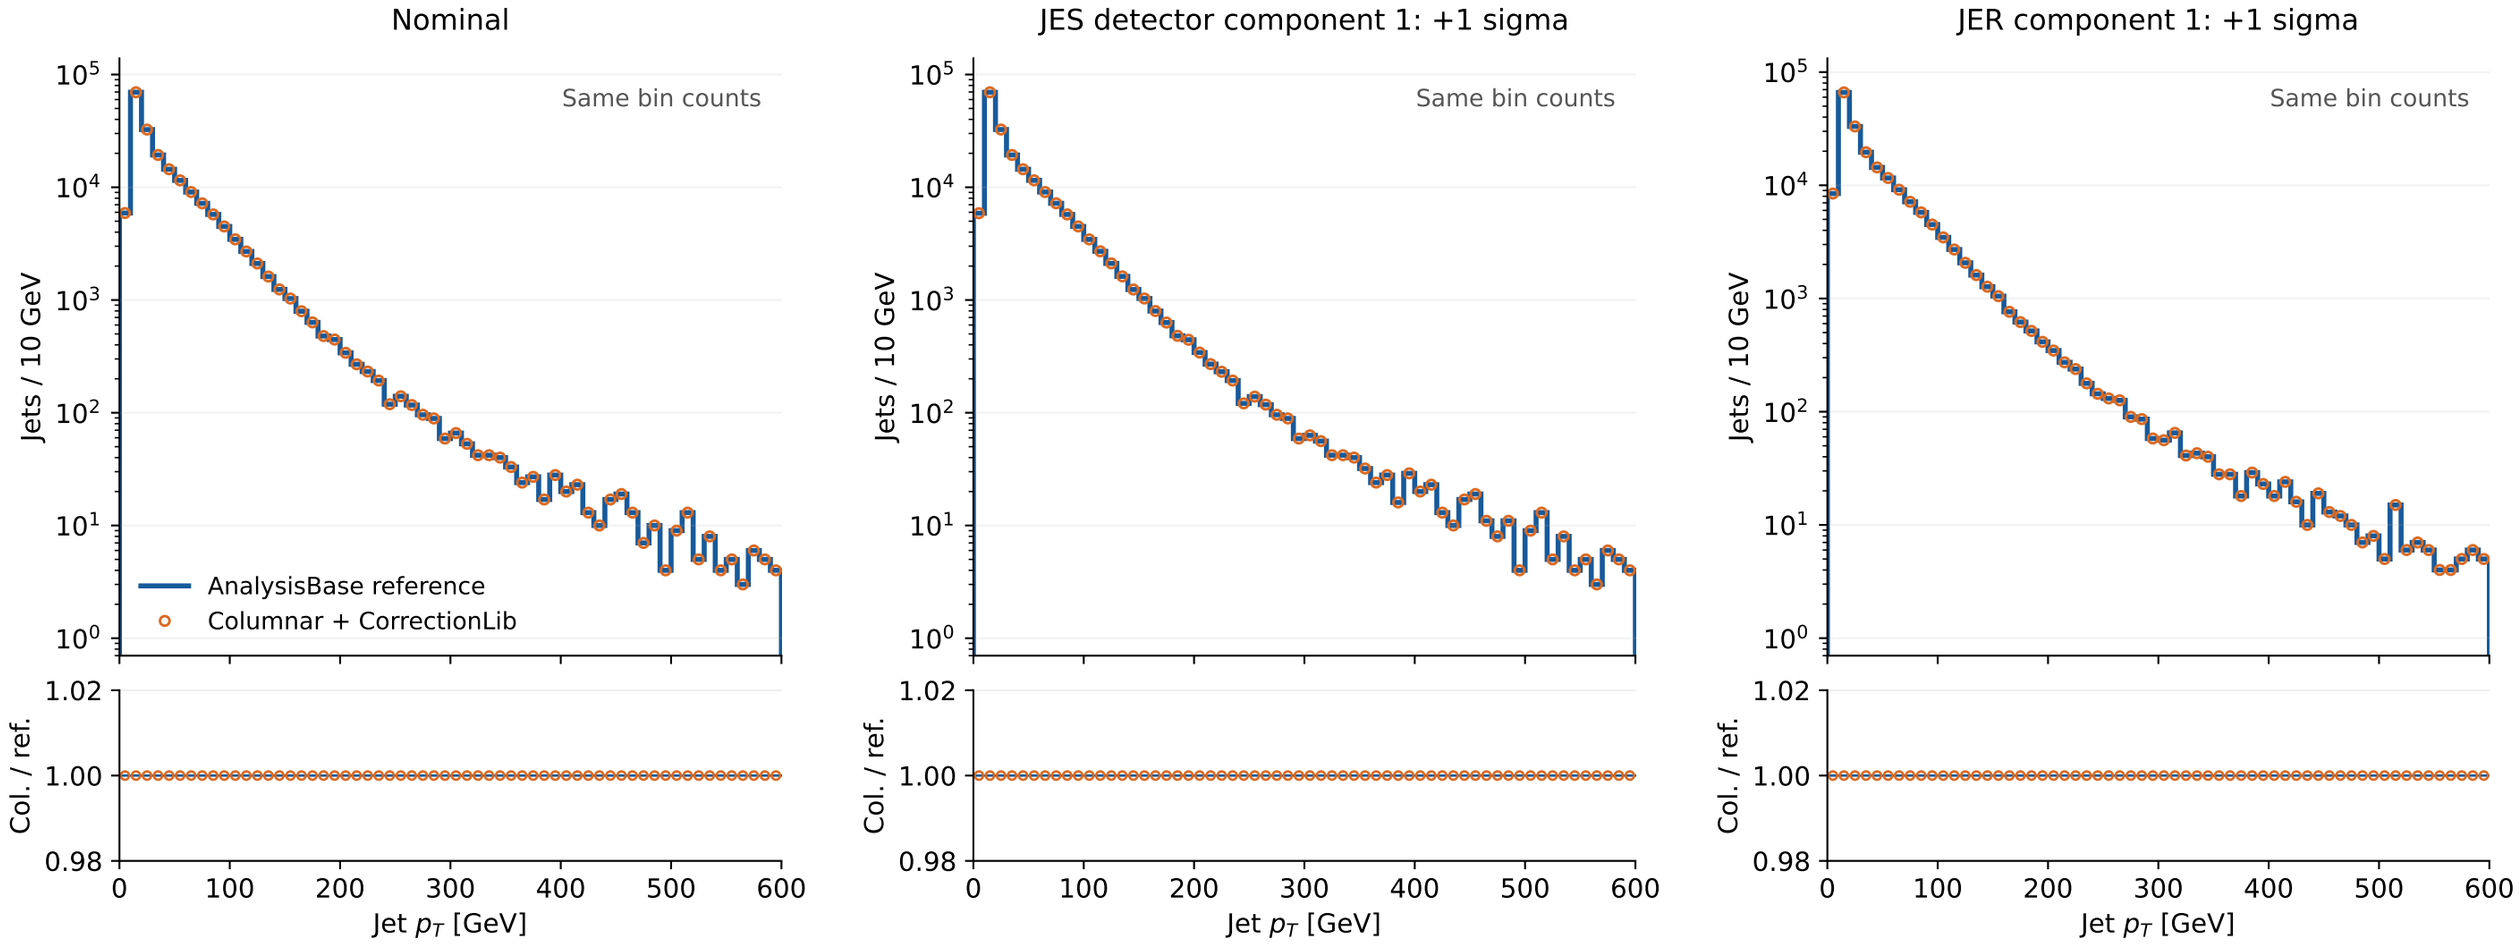
ATLAS jet corrections: reference and columnar outputs

Run-3 FullSim ttbar PHYSLITE | 20,000 events | 196,606 jets | AntiKt4EMPFlow

Blue: untouched AnalysisBase 25.2.100 Orange circles: shared CorrectionLib backend on PHYSLITE columns



Unweighted distributions; display range 0–600 GeV. Overlap is expected: the numerical comparisons pass.

Three representative states shown; full numerical validation covers 117 kinematic states plus two NNJVT weight variations.
